DETAILED ACTION

1.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, 17, 19, 21 and 25, drawn to sunscreen composition, classified in class 424, subclass 59+.
- II. Claims 16, 18, 20 and 22-24, drawn to method of producing and extraction process of a plant, classified in class 424, subclass 132.1.

2.

The inventions are independent or distinct, each from the other because:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different designs, modes of operation, and effects (MPEP § 802.01 and § 806.06). In the instant case, the different inventions have different effects as well as different modes of operation.

3.

Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

4.

During a telephone conversation with Karoline A. Delaney on August 6, 2007 a provisional election was made with traverse to prosecute the invention of Groups I, claims 1-15, 17, 19, 21 and 25. Affirmation of this election must be made by applicant in replying to this Office action. Claims 16, 18, 20, and 22-24 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

5.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

6.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Karoline a. Delaney on August 6, 2007.

The application has been amended as follows: **IN THE CLAIMS**

Cancel claims 16, 18, 20 and 22-24, direct toward the non-elected invention.

7.

The following is an examiner's statement of reasons for allowance: The prior art does not teach, disclose nor fairly suggest the claimed natural sunscreen composition or delivery system for topical application comprising an extract of plant *Hedychium spicatum* and/or plant *Alpinia galanga* and a cosmetically acceptable carrier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

8.

The information disclosure statement (IDS) submitted on May 18, 2004 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.
